Subject: Microsoft Settlement

To The Department of Justice:

I would like to voice my feelings about the Microsoft Settlement. Recently several friends and I were discussing this lawsuit. Most of us voiced the opinion that the stock market decline began when these lawsuits started against Microsoft. We (90%) have the conviction that Microsoft is an honest company. They are practicing the American free enterprise system. We fervently hope this case will end soon with a good result for Microsoft. I must tell you the group I speak of are mothers and grandmothers. We are not financial wizards. However, we are or have raised children, and we know right from wrong.

Most Sincerely,
Connie McCormick
Fort Myers, Fl. 33919
